

New Coverage Offering! Manufacturers E&O

Errors and Omissions (E&O) for Manufacturers

Manufacturers E&O covers two main risks: damages caused by an alleged product or work defect resulting in a third-party financial loss without bodily injury or property damage and any related litigation expenses. It can help protect a manufacturer from financial loss while also protecting its reputation.

Coverage Features

We offer claims made and reported professional liability policies for US-domiciled companies with revenues up to \$250 million.

Each policy can be tailored to fit the manufacturer's unique exposures, by providing coverage for:

- Design, development, manufacturing, selling and value-added reselling of Manufactured Products for others, including:
 - embedded software and firmware developed by the Insured and contained within Manufactured Products
 - materials, parts and equipment provided by the Insured in connection with Manufactured Products
- Installation, training in the use of, support, servicing, maintenance and repair of Manufactured Products
- Advice, consultancy, design, plan, specification, formula, labeling, packing, instructions for use, or warnings to others, but only for any Manufactured Products supplied by or on behalf of the policyholder
- The marketing, selling, licensing and distribution of Manufactured Products by the policyholder
